

Water cycle

HOW TO CREATE YOUR ELEMENTS

STORAGE

The items in the box can be printed on several A4 pages and can be stored in a large paper envelope.

CRAFT THE ELEMENTS

A. Print the Annexes

1. On 5 A4 sheets (regular paper or on thicker paper), print the Annexe Water cycle_storytelling. You can print one Annexe for two students/one Annexe for one student or print it only one time to use it with all class.
2. On 1 A4 sheet, print the Annexe Water cycle_storytelling_the explanation
3. Cut out the four sentences from the story (on the Annexe Water cycle_storytelling_the explanation).

POTENTIAL ISSUES

None.

Co-funded by
the European Union

ALTERNATIVES

Model of the water cycle

To complete the story in images, and with simple materials like cardboard, cotton, and paint, you can build a water cycle model showing the different stages. The model can be stored in a shoebox or a larger box, depending on size.
