# AN ENERGY GIFT

Mommy Nature, like all mothers in the world, gives gifts to her children.

Mommy Nature gave us the sun. The wind. The water.

All living beings need it, but we humans more than others.

We don't just "eat" energy at breakfast; throughout the day, we need energy to "power" our cities.

Try to think of all the situations in which we use energy.

If we feel cold, if we feel hot, if we feel thirsty or hungry or if night simply falls. Our mommy Nature has thought of everything. Many of her children have taken it upon themselves to use these wonderful gifts best. However, it is still not enough; we must work harder to safeguard ourselves, but above all, our caring and lovely "Mommy".
